ENVIRONMENT AND ENERGY USAGE POLICY

The Institution is very proactive about saving the Environment and the energy consumed towards maintaining a sustainable environment not just for the present generation but for all the future inhabitants and to reduce carbon footprint.

This Environment and Energy Usage Policy is binding to all the Faculty Members, Students and all Stake holders of the Institution.

The institution strives consciously towards not just consumption but also saving the natural energy available.

Following is the Environment and Energy Usage Policy of the Institution:

1. To consciously access and reduce any damage done to the Environment while carrying out our daily activities.
2. To install Solar Panels to tap the natural solar energy and substitute it with the usage of Electricity wherever applicable.
3. To install energy saving LED bulbs to save electricity consumption.
4. To develop a waste management system through effective segregation.
5. To plant more saplings / trees and plants effectively through the dedicated units of NSS.
6. To provide information about the measures taken to reduce energy consumption and environment protection to all the students, faculty members and stake holders.
7. To offer opportunities to students and the faculty members towards protecting environment and energy saving activities.
8. To constantly upgrade and revisit the policies whenever necessary, on a periodical basis.
9. The Principal under the guidance of the Management and the stakeholders to review the policy periodically and communicate the same to the students, faculty members and the stake holder.
